

Enough Is Enough Guelph!

Canada is being DESTROYED! You are witnessing a worldwide coordinated attack to destroy nation economies to bring in a one world govt, digital currency (The WEF Great Reset), mandatory vaccinations, identity microchips, mass surveillance, tracking your every move and removal of your basic rights.

WHO IS BEHIND THIS

The United Nations... this is Agenda 21... *New World Order*....right here in Canada. **UN Agenda 21/2030** is Sustainable Development, a global-to-local plan to inventory, control, track & trace all land, resources, humans and all production in the world. This is a foreign takeover of ALL countries and it is FRAUD.

THE PLAN

The World Health Organization/Public Health Agency of Canada/ICLEI & WDGPublic Health are UN-controlled Non-Government Organizations. This 'pandemic' was **PLANNED** at "**Event 201**", held in NY on October 18, 2019. Create a fake pandemic. Lockdown countries using UN NGO's. Stop people from working. Destroy small businesses, make people lose their jobs and become reliant on the govt in the form of Universal Basic income, a Social Credit System & Vaccine Passports. In other words, Communist China.

There is something very ugly going on here... Justin Trudeau, Doug Ford, Cam Guthrie-Mayor, Mike Shreiner-MPP & Lloyd Longfield-MP are ALL being paid to implement this foreign policy without your knowledge, violating established Canadian law, trust laws and basic inherent rights. This is treason. Our police have somehow been stripped of all policing powers to stop this & they now need our help (see police links on the back page). It is time to get informed, involved & ACTIVE in stopping this tyrannical takeover of our freedoms! Turn off the mainstream news & research! For our children's future...

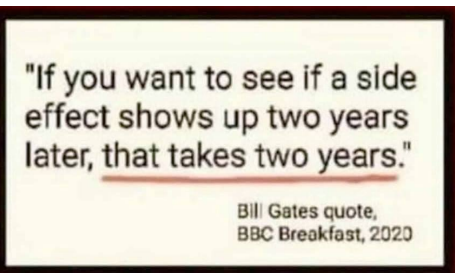

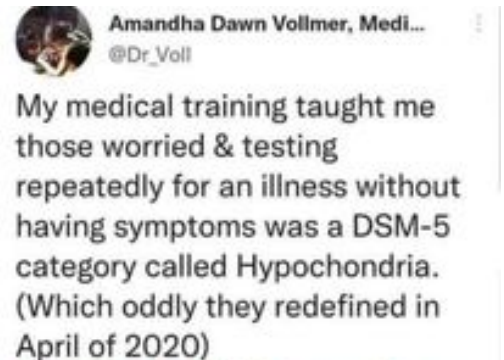

Did you know?? from StatsCan:

2018 deaths: 284,111	Population: 36.9 million
2019 deaths: 287,560	Population: 37.5 million
2020 deaths: 300,300	Population: 38.1 million

Last year
Pharma made 1.27 trillion dollars
Yet
Not a single penny went into teaching you how to get healthier
You aren't their priority
Money is

In less than a year, our government has dictated
1) when we can leave our homes;
2) if we can work;
3) what we can buy;
4) what we have to wear in public;
and 5) who we can see in private.
All from the initial 'ask' of a two-week lockdown to "flatten the curve". Let that sink in.
